## SUMMARY

Computer Science graduate with internship experience in frontend and full-stack projects. Hands-on experience with HTML, CSS, JavaScript, React, Node.js, and MongoDB. Eager to grow as a full-stack developer and contribute to real-world software solutions.

## EXPERIENCE

### Full-Stack Development Intern, Unified Mentor, Gurugram

August 2025 - October 2025

- Built 4 frontend projects (Expense Tracker, Chat App, Weather App, Portfolio Website).
- Worked on an advanced full-stack project (Student-Teacher Booking Appointment System) using Next.js and MongoDB.
- Gained experience in version control with Git and deployment using Vercel.

## EDUCATION

### Govt Polytechnic Paonta Sahib — *Diploma in Computer Science*

August 2019 - July 2021

**Coursework:** Data Structures, DBMS, Operating System, C Programming

### Chandigarh University, Punjab — *B.Tech in Computer Science*

August 2021 - July 2024

**Coursework:** Data Structure & Algorithms, Computer Networks, Java, DBMS, Operating System, Web Technologies, Software Engineering

## PROJECTS

**Expense Tracker App** — Developed using React, implemented income/expense tracking with dynamic charts for visualization.

**Chat Application** — Built a real-time messaging app using Next.js and Firebase Firestore, enabling instant communication.

**Weather App** — Created a responsive web app that fetches and displays live weather data using public APIs.

**Portfolio Website** — Designed and deployed a personal portfolio using Next.js, showcasing skills and completed projects.

**Student-Teacher Booking System** — Developed a full-stack application using Next.js and MongoDB for scheduling and managing appointments.

## SKILLS

**Frontend:** HTML5, CSS3, JS, React, Next.js

**Backend:** Node.js

**Database:** MongoDB

**Tools:** Git, Vercel

**Programming:** Basic Java

## LANGUAGES

Hindi, Haryanvi, Punjabi, English
